surged in Europe as a main touristic destination due to its rich history, deep culture and a very singular nightlife. In 1996 the city center was elevated to the status of Unesco World Heritage. This region is also famous worldwide because of its wines, that are produced and stored along the banks of Douro River.

The timeless elegance of the Building comes from a rehabilitation project of an 18th century Palace which preserves many of its unique architectural features. It is located in the banks of the Douro River with its façade facing south, allowing it to have great sun exposure and splendid views over the river and the city. The project is comprised of 2 autonomous buildings, the renovated Palace and a new structure, separated by an internal magnificent private garden. Within the renovated Palace, most units include mezzanines enhancing the original double height ceilings.

All residential units can be sold completely decorated and furnished.
