and 2020.

It offers all modern comforts thanks to quality interior finishes that combine refinement and sophistication, preserving the features and charm of the original Pombaline architecture.

Composed of 4 floors and parking on the ground floor.

One of the assets of the property is its generously sized garden (93m²), almost unique in this old part of the city, from which you can access the swimming pool, hammam, sauna and a magnificent and spacious terrace...

- Ground floor: two commercial spaces, one of which currently used as a garage; entrance hall with access to the elevator and stone staircase. One of the commercial spaces, with a superb volumetry with almost 5 m below the ceiling, can be rebuilt from its mezzanine as it was originally to, for example, create a loft or commercial office with parking, or house several parking lots above a commercial office or a sunny apartment.

- First floor: self-catering apartment accessible by elevator, stairs or independent entrance through the garden with kitchen, living room and two suites and small bedroom."

- Second floor - With access to the elevator and staircase of the Palacete but also to the staircase that leads to the garden. It consists of a living room, a suite, a toilet and a kitchen. Another room overlooks the garden.

On this floor, facing the 93m² garden, are 3 newly built suites with independent access. There is also a small house in the garden, with 30m² on two levels, which can be renovated to turn into a room or demolished to enlarge the garden.

Through the garden you can access the 3rd and 4th floors where there is an outdoor Jacuzzi, a 2-seater hammam, a 5-seater sauna and an 88.00 m² terrace/solarium for common use of the entire property.

- 3rd floor: apartment consisting of hall, elevator access, large living room, office connected to the dining room and kitchen that extends to the terrace.

-Fourth floor - Two suites, one with private solarium. The duplex master suite with a bathroom and shower, and a mezzanine with a large bathtub.

This Palace is located in the Cathedral district, the heart of the Historic Centre of Lisbon, which was for centuries the preferred area of the aristocracy and the royal family that then resided on the site of the current Praça do Comércio bordering the Tagus.

Attached to the wall, where the tourist district of Alfama begins, the Palacete is one of the only mansions preserved and preserved in its original state. It was built in 1758 by Pedro José de Noronha Camões de Albuquerque Moniz e Sousa, Count of Vila Verde, Marquis of Angeja (1716-1788). Of Spanish origin, the Noronha family is related to the

1st King of Portugal since the

13th century. Composition: Ground floor 2 commercial spaces (convertible into housing/car parks 6 reception rooms (1 room in the 1st) (2 rooms in the 2nd) (1 living room, 1 dining room, 1 office on the 3rd floor)
