The Schindler elevator provides easy access to all three levels, although the staircase is also designed to be wide and comfortable.

First floor:

Two large suites offer luxurious private spaces, each carefully appointed for the well-being of residents.

Top floor:

The master suite occupies this entire floor, offering privacy and exclusivity. It opens onto a private terrace, where one can enjoy peaceful moments and stunning views.

Equipment & Facilities:

A Schindler elevator ensures easy access to all levels.

The heated floor provides a soft and consistent warmth, adding a touch of luxury.

Pre-installation of air conditioning provides optimal temperature control.

Solar panels contribute to a more sustainable use of energy.

Electric blinds add modern convenience.

An alarm system ensures the security of the home.

This home represents an exceptional fusion of contemporary design and modern functionality, creating a stylish and comfortable place to live in Belem.
